A HAPPY
 NEW YEAR

Everyone at Sonitron® is back from holidays and rearing to go. We hope that you also had a good holiday . During 2007 Sonitron® will be doing a lot of R&D work on chemical products for all divisions. Toward the end of 2006 we have seen the final phases of development for a couple of exciting new products. The field tests are coming back in and results are looking very good. These products have been underway for quite some time, and we will be introducing them into the market place shortly.

December saw the arrival of the Cimex CRS38, the 38cm version of the very successful Encapsulation Machine. This machine will solve the problem of wanting to use a Cimex on domestic work but finding it too big for these situations.

The Cimex is the most popular Encap machine in Australia and overseas.

It is reliable and easy to use, giving excellent results. Can be used on all hard surfaces, tiles, vinyl, timber, stone, ceramic as well as on carpets. The ideal multi-purpose machine for professional floor cleaning.

Contact us on 07 3266 9966 or e-mail sonitron@sonitron.com. au to find out more.

As well as Sonitron® Chemicals we also supply a full range of Windsor Equipment, Cimex Equipment, spare parts and accessories. This range includes Carpet Dryers, Versamatic and Sensor Vacuum Cleaners, Windsor self contained brush type extractors, electric carpet extractors, auto scrubbers, and accessories, Truvox Orbis polishers. Kerrick Equipment, Gloria Spray Equipment, Carpet Bonnets, Floor Pads and much, much more. We have been supplying the Cleaning Industry for 27 years in February, and incorporated in 1981. We offer reliability and service. The technical advice we offer users of Sonitron® chemicals is second to none.
