

SONITRON® BRIEFS

JANUARY 2009

HAPPY NEW YEAR

We hope that everyone had a wonderful Christmas and welcomed the new year with bells and whistles. We urge you to forget the direful predictions of recession and bad news, and make this the best year ever. The scaremongers and doomsayers do not know it all, and this is our opportunity to prove them wrong. Let us all make 2009 a great year, happy, healthy and prosperous.

HERE'S TO 2009

How do we at Sonitron® see 2009? We will be continuing our R&D work, and this means we will be offering you more new products. When working with Sonitron® chemical you are using the best chemical products available in Australia. Sonitron® chemicals together with the first class equipment we sell give you a significant advantage in the quest to do a first class job at a competitive cost. Being chemical manufacturers we are well placed to present the products you require, and to be able to fill the need for new products when you ask for them. The introduction of Chemox to the market place in December is an example of this. We will be telling you more about Chemox in our February Briefs.

Our Christmas Hamper was won by Matthew Jones of Unitek, Forster. NSW.
