**ATTENTION ALL ZENITH USERS:-**

We all know about the 1<sup>st</sup> class cleaning capabilities of Sonitron's ZENITH Encap Shampoo but have you considered the benefits of using 'ZENITHPLUS'?

Formulated to the high exacting standards normally associated with the Sonitron® range of chemicals. ZENITHPLUS has the extra bonus of also containing added "Fluorochemicals" to further enhance the anti soiling capabilities of the encap shampoo. Of great benefit to those who wish to offer their customers protection for their carpets, it is applied at the same time as the ZENITH (no extra step required – less time); it also is a great benefit for those who are doing a lot of continuous cleaning in the commercial market.

Using ZENITHPLUS each time will greatly reduce the amount of time spent pre-spotting carpets before you start, and greatly enhance the ongoing appearance of the carpet in between cleans. – Happy Customer – Happy Carpet Cleaners. For more information on ZENITHPLUS, or to order any product in our range, please call us on 07 32669966 or e-mail us at sales@sonitron.com.au

**Things to consider if you are looking for a new Carpet Cleaning Machine.**

**What will it cost you?**

**How much will you have to spend to do a first class job?**

**Does the equipment have a good name is it reliable.?**

**The cost of running the equipment?**

**The future and certainty of overseas imports?**

**The worlds climate and the problem of carbon emissions?**

**These are all things you need to consider.**

**If you are a cleaner you are lucky as in times gone by current type conditions favoured you.**

**Now is the time to consider whether your current equipment will efficiently do your workload.**
