

ZENITHPLUS

ENCAPSULATING CARPET AND UPHOLSTERY SHAMPOO WITH PROTECTION AGAINST RESOILING

- 1 Soil and detergent residues are encapsulated for easy removal by dry vacuuming.**
- 2 ZENITHPLUS has high level cleaning power and the low pH allows use on all common fibre types including wool and 5th generation stain block nylon.**
- 3 Gives substantial protection against resoiling-cleaning and protection can be achieved in a single operation.**
- 4 ZENITHPLUS can be used with a wide range of machinery, including all single brush shampoo machines, the Cimex Cyclone triple brush machine, and a number of machines with reel or cylinder type brushes such as the Windsor i-Renew[®] range.**
- 5 Ideal when a faster dry than extraction is required. It uses very little water, being ideal for low moisture cleaning.**
- 6 Can eliminate wicking on difficult carpets, such as polypropylene with a bad history of staining.**
- 7 Economical to use—this concentrated product cleans well and gives protection also for very much less than the cost of two separate operations.**
