

ZENITH

ENCAPSULATING CARPET AND UPHOLSTERY SHAMPOO

- 1 Soil and detergent residues are encapsulated for easy removal by dry vacuuming.**
- 2 ZENITH has high level cleaning power and the low pH allows use on all common fibre types including wool and 5th generation stain block nylon.**
- 3 ZENITH can be used with a wide range of machinery, including all single brush shampoo machines, the Cimex Cyclone triple brush machine, and a number of machines with reel or cylinder type brushes such as the Von Schrader, and the Windsor iRenew range.**
- 4 Ideal when a faster dry than extraction is required.**
- 5 Can eliminate wicking on difficult carpets, such as polypropylene with a bad history of staining.**
- 6 Easy removal of detergent residues eliminates foaming problems if the carpet is subsequently cleaned by hot water soil extraction.**
- 7 Economical to use – can be diluted up to 1 of Zenith in 40 of water, depending on type of machinery used.**
- 8 Meets with the requirements of the relevant Australian and New Zealand Standard AS/NZ AS3733-95**
- 9 Has Woollsafe Certification for use on wool and wool rich carpets**
