

# SONITRON BRIEFS

APRIL 2007

Meet our Bill. Over the years Bill has helped many of you to sort out a problem. A lot see Bill on a regular basis, however some who live outside the Brisbane area will have only spoken to him. You will now have an idea of what Bill looks like. Bill has both IICRC and Woosafe qualifications. Bill Cutler is the first person you see when you walk in the front door of Sonitron®. Next time you speak to Bill don't forget to tell him how handsome he is.

Bill answers your technical queries. Jo, Elaine and Jackie would like him to tidy his desk, but Bill says he never has time. He is too busy assisting our clients.

Contact Bill on 0732669966

bcutler@sonitron.com.au

Place your order for any of the chemical products mentioned in this issue of Sonitron Briefs and receive a Sonitron Cap and Zenith Encap Spot & Stain Remover.

We have a daily delivery service to all suburbs and all transport depots.

We take Bankcard, Visa, or Mastercard.

## Cleaning of red soil in carpets & upholstery

The use of King Hit or Maxi-T-Prespray Powder and any of our Sonisteam or Maxi-T-3 Liquid mixed in a special ratio makes the cleaning of red soil out of carpets and upholstery a breeze.

### Read more

In the enclosed our technical bulletin pre-spray techniques for experienced technicians which will give you the correct ratios, as well as many other techniques that will help make your job easier and assist you to give your customer a better result.

## How often has somebody said to you we have a problem with cleaning our carpets as Jane/Jim has asthma?

SK45 is Sonitron's® answer to the problem. SK45 was developed in conjunction with a group of doctors who specialised in the treatment of allergy. Working together with these doctors over a period we developed a system of cleaning carpets and upholstery for people who suffer from the debilitating problem caused by asthma and allergy.

SK45 is part of the system and is used in conjunction with Hot Water Soil Extraction and a HEPA filter upright vacuum cleaner such as a Versamatic or Sensor. Available in 5lt. 20lt and 200lt. packs

### SK45 LIQUID

## Do you carry a multi-purpose product with you to handle areas where there has been the possibility of contamination?

SONIQUAT is a multi-purpose product. It is very efficient as a deodorant, and sanitiser in any applications. It is a powerful anti-microbial and attacks many unwanted fungi and odour causing bacteria. Can safely be used on carpets and upholstery. Always pre-test upholstery first. Available in 5lt., 20lt., and 200lt. Packs.

## They are here at last. Volkafoam sprayers. These sprayers come in several sizes and are suitable for applying Zenith, SK25, Magi-Dry and other foaming products.

- VITON /EPDM Seals
- Heavy Duty Nylon/PPN Head & Pump
- Liquid Capacity 0.9 & 1.3lit.
- Robust Bottle
- Safety Pressure Release Valve

.The first Mini Foam Sprayer that proudly invented by Bravo-p/l in Australia. They can make a dry foam as thick as shaving cream or a wetter more flowable foam when required.

- VITON Seals
- Heavy Duty Nylon/PPN Tank & Pump
- get a very fast dry
- Liquid Capacity 5 & 8lit.
- Safety Pressure Release Valve

- Control water content on the job to get a very fast dry

The performance of VOLKAFOAM 5&8lt Foam Sprayers is amazing. The consistency of the foam can be varied by slight variations in the water content.
