

# SONITRON® BRIEFS DECEMBER 2007

Yes it is December again. Probably if we took time to reflect we would all like a clone of Dr. Who's time machine for Christmas. This might help us to slow things down a little.

The year has not stood still at Sonitron® it has been an exciting year for us. Frank has worked hard and long to produce what he regards as his best research ever and been able to incorporate this into the new Formula S50, We have had two products pass the very stringent tests carried out by Woolsafe International. These products are SK50 and Zenith. All in all things have moved at a very quick pace at Sonitron®.

What benefit is Woolsafe Approval mean for you? To wear this logo a chemical has to pass the most stringent international testing programme available. It guarantees that the product is safe to use on Wool and Wool rich carpets and fibres. SK50 and Zenith as well as having Woolsafe Approval comply with the requirements of the Australian New Zealand Standards for carpet and upholstery cleaning AS/NZ-3733-1995 and AS/NZS 48449.1-2003

### CHRISTMAS CLOSURE
